MENTOR JEUNES

Foster families for
Unaccompanied Minor Refugees
(UMR)

**Become an actor in a life project based
on solidarity and citizenship !**

UMR

« UMR are children and adolescents on the run who arrived in Belgium on their own without parents or legal guardians »

YOUNG PEOPLE ON THE RUN

Every year, many unaccompanied minor refugees arrive in Belgium.

Most of them seek protection and ask for asylum in our country.

VULNERABILITY

Our project completes the existing care facilities and offers a family-based alternative to certain young people for whom life in a collective reception facility is not adapted.

HOST FAMILY

A host family offers these children and adolescents the opportunity to evolve in a secure environment adapted to their needs.

This commitment is open to anyone who wants to join us in this civic and human adventure !

The hosting period will be mainly medium to long term.

A PARTNERSHIP

A multidisciplinary team (psychologists, social workers, legal advisor) at your side throughout the foster period.

YOUR PROJECT

Individualised preparation of your foster project based on your situation.

OUR SUPPORT

Permanent support, at a psychosocial, legal and administrative level throughout the foster period.

A SPACE FOR DIALOGUE

An opportunity for foster families to discuss their experiences with each other
